

(2) exclude the "purchases of traded goods" from its calculation of the cost of manufacturing; (3) adjust United States price by recalculating marine insurance pursuant to a value-based methodology; and (4) correct clerical errors in the calculation of the weight of scrap for one of the Chinese producers. *See Timken Company v. United States*, Court No. 97-12-02156, Slip Op. 01-96 (CIT August 9, 2001).

In its instructions, the CIT did not refer to companies by name. Accordingly, in implementing the court's instructions for determining direct labor costs without relying on labor hours, excluding the "purchases of traded goods" in calculating the cost of manufacturing, and adjusting United States price by recalculating marine insurance pursuant to a value-based methodology, we calculated the changes for all companies for which we had data and for which we had performed calculations to arrive at the weighted-average dumping margins in the Final Results. For one company, Guizhou Machinery Import and Export Corp. (Guizhou), this resulted in a change in margin from 21.79 percent to 31.05. This new margin is also the highest overall margin calculated in any segment of this proceeding.

The Department issued final results of redetermination on remand on December 13, 1999. The CIT affirmed the Department's final remand results and dismissed the case. *See Timken Company v. United States*, Slip Op. 02-30 (CIT March 20, 2002). There was no appeal to the United States Court of Appeals for the Federal Circuit. As there is now a final and conclusive court decision in this action, we are amending our final results of review and we will instruct the Customs Service to liquidate entries subject to this review.

Amendment to Final Results

Pursuant to section 516A(e) of the Act, we are now amending the final results of administrative review of the antidumping duty order on TRBs from the People's Republic of China for the period of review June 1, 1995, through May 31, 1996. In the original Final Results, we established margins for Jilin Machinery Import & Export Corporation (Jilin) and the PRC-wide rate on the basis of total adverse facts available and selected the highest overall margin calculated in any segment of the proceeding. As noted above, that rate is now 31.05 percent, the rate calculated for Guizhou in the final results of redetermination on remand. Accordingly, we are amending the rate for Jilin and the PRC-wide rate

consistent with those final results of redetermination on remand.

| Company | Margin |
|--|--------|
| Peer Bearing Co. and Chin Jun Industrial Ltd. | 3.07 |
| China National Machinery Import and Export Corp. (CMC) | 3.05 |
| Guizhou Machinery Import and Export Corp. | 31.05 |
| Liaoning MEC Group Co., Ltd. | 0.61 |
| Luoyang Bearing Factory | 3.84 |
| Premier Bearing and Equipment, Ltd. | 5.60 |
| Shandong Machinery and Equipment Import and Export Corp. .. | 19.13 |
| Wanxiang Group Corp. | 0.11 |
| Xiangfan Machinery Foreign Trade Corp. | 0.49 |
| Zhejiang Machinery Import and Export Corp. | 0.17 |
| Jilin | 31.05 |
| PRC Wide Rate | 31.05 |

Accordingly, the Department will determine and the Customs Service will assess appropriate antidumping duties on entries of the subject merchandise exported by firms covered by this review.

We are issuing and publishing this determination in accordance with section 751(a) of the Act.

Dated: July 3, 2002.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.
